How do workers use intranets?

Find out in SLA's latest usability study

On-the-Job Research: How Usable are Corporate Research Intranets?

by Alison J. Head with Shannon Staley

This industry report focuses on the usefulness and usability of research intranets-specialized internal and secure sites that make both internal and external research resources available to employees online. Based on a research study conducted at seven major companies in diverse industries, *On-the-Job Research* offers:

- A top 10 list of research topics employees frequently have in their daily work.
- 32 major findings from sessions with employees at seven major corporations who tested their intranets with us.
- 24 recommendations for creating sites that are easier to use.
- Three case studies of sites are featured.

This report is a must-read for anyone who designs, manages, develops or evaluates corporate intranets in their daily work.

**Precise thinking
requires
precise searching.**

With STN, you can find exactly the science and technology information your business needs to make important decisions. A change in molecular stereochemistry can radically alter the strategic direction of your entire research project and possibly your entire company. That's why STN gives you so many ways to research substances, your competitors, and your industry. Our tightly integrated system ties together published research, journal literature, patents, structures, stereochemistry, trade names, physical properties, sequences, and other data from the world's largest collection of chemical substance information—CAS Registry.SM So when you're dealing with issues vital to your business, use STN and get the results you want. Precisely.
